LSPA 2024 Environmental Symposium

April 10, 2024, 3:30 PM – 5:30 PM

Dos and Don'ts of In-Situ Remediation

INSTRUCTOR BIOGRAPHY

Lingke Zeng has over 18 years of experience in complex site remediation. She obtained a BS and MS in biotechnology from Nanjing University in China and MS in Environmental Science from the Ohio State University. Currently, she is project director at Sanborn Head. As a technical expert, she has evaluated, designed, and/or implemented site remediation at more than 300 commercial and government sites throughout the United States and internationally. Her main responsibilities include remedial treatability studies, remedial feasibility studies, and remedial design and implementation. She successfully designed and implemented site remediation to achieve remedial goals at various sites. She is actively participating in the development of innovative technologies and is also facilitating innovative technology transfer.
