

HETI is searching for a Senior Geologist/Environmental Scientist.

HETI has a great opportunity for a qualified Senior Geologist/Environmental Scientist based in our Acton, Massachusetts office. This is a mid- to senior- level position, whose duties will include managing investigation and remedial projects, risk and liability evaluations, legal support, client interaction, and report preparation. Must be able to multi-task and work effectively where client satisfaction is the top priority.

The ideal candidate meets most or all of the following:

- 5 + years experience in the environmental field
- B.S. in Geology/Environmental Science or applicable science
- M.S. and/or professional certifications as PE, LSP, LEP, or PG a plus
- Phase I management experience required
- Excellent writing skills
- Ability to work successfully in a team and independent environment
- Strong communication and client interaction skills
- Current 40-hour OSHA training and HAZWOPER preferred

Founded in 1986, HETI is a full-service, nationwide environmental services company specializing in environmental and indoor air quality site assessment, site remediation, risk characterization, occupational health and safety services, and litigation/expert witness support. Through our network of offices throughout the U.S., we serve a variety of large and small businesses.

We offer a competitive benefit package and a friendly, flexible work environment.
